

CHERRYTM BLOSSOM

A Release Agent for Ready-Mix AGI Trucks

Cherry BlossomTM reduces sticking and friction on the inside of the drum. Hence less energy is required to turn the drum reducing the fuel consumption.

Use of Cherry BlossomTM prevents sticking of excess concrete to the interior surface of the drum thereby reducing excess weight of the truck.

NON-STICK SOLUTION FOR READY MIX CONCRETE TRUCKS

Cherry Blossom™ Effectivity

- Reduces ready-mix truck cleaning times by more than 50%
- Eliminates the need of rock washes
- Eliminates the need for drum chipping
- Reduces fuel consumption for ready mix trucks – Cherry Blossom™

CHERRYTM BLOSSOM

Cherry Blossom™ Benefits

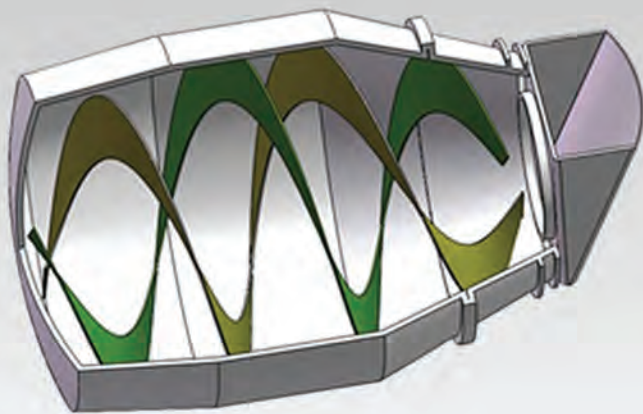

- Savings in cleaning time
- Reduces fuel consumption
- Eliminates possibility of overloading
- Eliminates potential for drums becoming off balance
- Reduces water consumption
- Reduces maintenance costs
- Reduces wear and tear on equipment and
- Increases life span of ready-mix trucks

NEVER STICK AGENT FOR READY-MIX AGI TRUCKS

Cherry Blossom™ Application

- Cherry Blossom™ is applied on ready-mix trucks once before beginning of an 8-hour shift consisting of approximately 5 delivery cycles
- The product can be applied either manually or automated using drive-up spray system
- Manual application takes less than 5 minutes and the automated system takes less than 2 minutes
- Make sure the ready-mix chutes, hoppers and mixing drum exit points are clean prior to product application

In addition to time and labour savings, Cherry Blossom™ acts as a rust inhibitor, increases lubricity and helps to extend equipment lifespan.

Cherry Blossom™ BioGreen

- Non-toxic and non-hazardous
- Emits no harmful fumes or vapours
- No damage to painted surfaces and rubber seals
- Safe for use in environmentally sensitive areas
- No recorded negative effect on the performance of resistance sensors
- No negative effect on the integrity of the concrete when it comes in contact with the product

It is important to note that the longer Cherry Blossom™ is in use, the better it performs. Extended usage allows the product to create a longer lasting, non-stick, protective barrier

NON-STICK SOLUTION FOR READY MIX CONCRETE TRUCKS

Reducing cleaning requirements, costs and associated safety risks in concrete mixer trucks

Cleaning of this equipment, which often includes chipping and hammering, is not only time consuming and costly, but also presents a safety risk to employees involved in the cleaning process.

Cherry Blossom™ solution for Ready Mix concrete trucks
